New York, Aug. 17.—The railroad
managers of the country have ac-
cepted President Wilson's invitation
to confer with him in Wash-
ington on the railroad strike situa-
tion. A number will leave this city
for Washington at four o'clock this
afternoon, and another delegation
will leave from Chicago at the same
time.

Calls Railroad Presidents.
Washington, D. C., August 17.—
President Wilson today invited the
presidents of the principal railroads
of the country to come to Wash-
ington to confer with him on the
threatened strike. He is inter-
ested in their arrival, he does not
wish to see the committee of man-
agers, with whom he has been meet-
ing, but he is interested in the
program to leading railroad pres-
idents.

Discussion of the matter involved
in the threatened railroad strike has
been a point which makes it high-
ly desirable that the railroad man-
agers confer with the president at
this moment, and with the president
of any other railroads affected who
can immediately accessible. Hope
can make it convenient to come
to Washington at once.

To Propose Shorter Day.
President Wilson was ready today
to propose that the railroads concede
the eight hour day to establish a basis
for a settlement of the threatened
national strike of railway employees.
It probably will be suggested that
a federal commission be appointed
by the president or created by con-
gress to investigate other issues in-
volved.

Railroad representatives expected an
early summons to the White House to-
day, and at three o'clock this after-
noon the president was to meet the
committee of 440 brotherhood leaders,
who came here yesterday from New
York with plenary powers to determine
the employees' course.

Indicates Managers' Refusal.
The president's action in asking for
a conference with railroad presi-
dents is interpreted as indicating
that the managers' committee had
refused finally to concede the eight
hour day as the president's plan pro-
posed, and the question now is to be
settled up with the heads of railroads
themselves.

The situation as it stood today was
this: The railroads flatly refused to con-
cede the eight hour day, but are will-
ing to arbitrate that question and all
others before any tribunal the presi-
dent or the men may decide upon.

The men are willing to arbitrate
questions under certain condi-
tions, and are unwilling to arbitrate
others.

This afternoon at three o'clock the
president will present his plan to the
committee of 440 employees in the
hope of getting them to approve it.
The result will be presented to the
railroads later.

Case President Wilson finds any
of the railroad presidents cannot
be absolutely for their road, he
will invite to the White House the
managers who control them. Officials
today that the president wants
to deal with the "ultimate authority"
of the sides in order that negotia-
tions may be conducted here.

Would Include Other Lines.
Some of the leaders of the men
planning to meet the demand of
the railroad managers for arbitration
are insisting that President Wilson
should invite more lines for which the
managers contend they have
authority to speak, shall be in-
cluded in the negotiations.

At this way, an old dispute between
the managers and the brotherhood
officials will be opened, and probably
result in inquiry into the ownership
and control of the seventy-five roads
in question.

Investigation will prove, the em-
ployees' representatives insist, that
the railroads for which the managers
are acting, control the majority of the
smaller lines.

THINK, TALK, WORK
AMERICAN IDEALS
AT GENEVA CAMPWomen Rookies at Military Training
Gathering Busy in Perfecting
Their Military Efficiency.[SPECIAL TO THE GAZETTE.]
Lake Geneva, Wis., Aug. 17.—The
150 women rookies who are here in
khaki and military training so they
can "think, talk and work" for Amer-
ican ideals have settled down to
their routine duties and are making
rapid headway toward military effi-
ciency today.

These women represent the 499,850
other American women members of
the Women's branch of the Navy
league. They are under the direction
of Mrs. Vella Poe Wilson, relative of
Edgar Allan Poe and militant Quar-
ters from Washington, D. C. She
originated the Women's Branch of the
League.

The League so far as we are con-
cerned has been organized little more
than a year," said Mrs. Wilson today.
"yet we have half a million members."
Mrs. George Dewey is president, Mrs.
Natalie S. Lincoln, treasurer, Mrs.
Elizabeth Poe, general secretary, and
myself organizing secretary. Some of
the other prominent members are
Mrs. John Hays Hammond, Mrs. Al-
bin Willing Astor, Julia Marlowe, Mrs.
Gibson Farnsworth, Mrs. Hugh L.
Scott. Ninety-five American cities are
represented.

"Hundreds of women wanted to
join the organization but complained
that they didn't know how to do any-
thing, so we started this work."
"We know that with 17 million
men of military age in the United
States that we would never be called
upon to fight, but we know we
would be called upon for aid in many
ways if this country ever goes to war,
so we're preparing."

The pledge signed by the women
in the organization reads: "I, the
undersigned, pledge myself to think, talk
and work for patriotism, Americanism
and sufficient national defenses to keep
the horrors of war from America's
shores forever."

"In these days of strife and peril
I will strive to do my share to awaken
our nation and our lawmakers to the
dangers of our present unpreparedness
and endeavor to teach the
children in my care to cherish and
revere our country and its history and
to uphold its honor and fair reputation
in the generation."

The second term of the Lake Ge-
neva school will begin Sept. 1, immedi-
ately after the close of the term now
in session.

Brownsville, Tex., Aug. 17.—Corporal
Carl Gunches, assigned to the quar-
termaster corps of the United States
army, faced charges in the Cameron
county court today of murder and as-
sault to murder, in connection with
the killing last night of Corporal
James Clement, "C" company, second
Virginia Infantry, and wounding of
Sofia Valdes, a Mexican girl. The Vir-
ginian was killed when he sought to
protect the Mexican girl from Gunches'
advances.

Gunches fired three shots with the
intention, it was said, of killing him-
self only. Only one shot took effect,
producing a slight flesh wound.

NOTICES SENT OUT

ceive Word They Are Dropped
From Payroll.[BY ASSOCIATED PRESS.]
Camp Wilson, Port San Houston,
Tex., Aug. 17.—The three hundred
of postal employees who are members
of the First Illinois brigade, now in
camp at New Braunfels, Texas, re-
ceived official notice today they have
been dropped from the payroll of the
postoffice department. They are sub-
ject to reinstatement, however, after
honorable discharge from military ser-
vice.

General Jack Foster, commander of
the brigade, and Colonel John J.
Garrity of the Second Infantry, are
among the officers whose postoffice
salaries were stopped.

Held Positions Open.
Washington, Aug. 17.—Postmaster
General Smuts has explained on re-
fusal occasions that no employees of
the federal service dropped from the roll
while in the army will be deprived of
the service after being mustered out.

Death List Low.
Washington, Aug. 17.—Eight deaths
from sickness among the regular and
national guard troops on the border
during the week ending August 12,
are disclosed in statistics made public
today at the war department. Medical
officers regard the death rate as ex-
ceptionally low since it covers the
total force of approximately 140,000
men in field camp.

Orders were issued today for exam-
ination of the posts at Fort Benjamin
Harrison, Indiana, as to its suitability
for establishment of a general hospi-
tal.

Washington, Aug. 17.—As the naval
bill finally was perfected today, the
Pacific coast won its fight for a big
battleship construction yard at Puget
Sound. The bill appropriates for a
submarine and torpedo boat base on
Columbia river.

The latter was dropped out pending
the report of a commission. Battle-
ship construction yards were also pro-
vided for Boston, Philadelphia and
Norfolk. The \$500,000 item for deep-
ening the channel to the New York
navy yard so as to float the greatest
warship any tide, was dropped out of
the bill despite urgent request by
President Wilson that it be retained.

All the disputed items now are
cleared up, and the bill with the big
building program, the greatest in the
history of the United States, already
perfected, is ready for the president's
signature.

Rome, Aug. 17, via Paris.—The
chief damage resulting from the earth-
quake which shook dozens of cities
and towns in central Italy yesterday
morning, was at Rimini, where four
persons are dead and thirty injured.
The military and civil authorities are
caring for the injured and homeless.
The earthquake caused a panic among

Baltimore, Aug. 17.—On account of
accumulation, an embargo effective
August 16, has been placed by the
Baltimore and Ohio railroad on all
grain shipments for export from here.
The notice says that shipments billed
up to and including August 15, will
be accepted. At the office of the com-
pany it was said there are 3,000 car-
loads of grain at the Locust Point
terminal, and in transit, and 1,500,000
bushels stored in the elevators.U. S. HEALTH

Widely Separated Parts of Country
Report New Cases.—Wisconsin
Has Peculiar Instance.[BY ASSOCIATED PRESS.]
Washington, Aug. 17.—Measures to
prevent further spread of infantile
paralysis were discussed here today in
a conference called by the public
health service under the authority of
congress for such councils in an epi-
demic of national danger.

Delegates from nearly all stations
were present with detailed reports of
spread of the plague over the country.
The imposition of new regulations
to prevent interstate of the diseases
ferent, but in welcoming the dele-
gates, Secretary McAdoo said:

"The real regulations are of great
variety, and while entirely commend-
able, coordination of regulation is
needed to avoid unnecessary incon-
veniences and still give adequate pro-
tection to the public."

Eleven Thousand Cases.
The exact figures from thirty-eight
states showed 11,117 cases of infantile
paralysis not confined to cities by any
means, according to reports of offi-
cials at the meeting.

Many cases were reported on farms.
Few suggestions were offered regard-
ing the possible origin. A uniform,
possibly a federal health certificate
to facilitate travel of children was
suggested.

There was little need of a quarantine
by other states against travelers
from the east. Practically all state
officers, enforced rigid local quaran-
tines to check spread of the
disease in their own state.

Contrast in New York.
Dr. Haven Emerson, health com-
missioner of New York, said three
million facts had developed. Of 30,
000 state institutions under
state supervision using the same milk,
water and food of other New York
children, not one had been afflicted
with the disease. Near the city's gar-
bage dumps, where maximum
contamination from flies and germs
might be expected, not one case developed.
The death rate in more congested
Brooklyn, he stated, was lowered in
communities.

Philadelphia's Precautions.
Philadelphia, Aug. 17.—Director
Krusen of the local department of
public health today requested that all
Sunday school churches be
closed to children under the age of
sixteen until the epidemic of infantile
paralysis is over.

For deaths and two new cases were
reported up to date today, making a
total of 63 deaths and 236 cases since
July 1.

New York Has Decrease.
New York, Aug. 17.—The epidemic
of infantile paralysis took a curser
for the better today, the third suc-
cessive day showing a decrease in death
and new cases. During the twenty-
four hours ending at 10 o'clock
the plague killed thirty-two children
and 121 were stricken.

Spreads in York State.
Albany, N. Y., Aug. 17.—Reports of
twenty-seven additional cases of in-
fantile paralysis in the state exclusive
of those in New York City were re-
ceived by the state health department.
The cases now total 1,150. There were
no deaths.

Madison, Aug. 17.—The coming of
a young man from New York City to
visit the family of District Attorney
Charles E. Putnam at New London,
at the family cottage at Shinnecock
and the subsequent infantile par-
alysis to both, the five year old son
and the Putnam, furnishes evidence of
transmission of the infection from the
nation's metropolis.

This is the belief of the physicians
in charge of the case, whose report
had been here today. The boy
had been in Baltimore yesterday and
had a number of infectious disorders,
body, as had many other bathers at
Shinnecock lake this summer. The young
man, who was practicing in
New York, came directly to Shinnecock
and the Putnam cottage. He brought
some fruit along and played with the
boy.

He stayed at the cottage for the
weekend. Two days after he left,
the lad came down with a high fever,
vomiting, headache, backache and
pains in the arms and legs, and on the
fourth day of sickness his left leg
was paralyzed.

New cases were reported today as
follows: North Hudson, St. Croix
county, two; El Paso township, Gil-
man township, Buffalo county, ten;
Willsboro, Warren county, one;
county and Milwaukee, Grant
county and Milwaukee, this makes
sixty-seven positive cases; two sus-
pected ones and five deaths, according
to present record. The Putnam case
is the first reported in the south-
western part of the state.

Spreads in Chicago.
Chicago, Aug. 17.—Spread of infantile
paralysis in Chicago and suburbs
was added by the health authori-
ties. More cases have been reported
thus far in August than were reported
in July. There are fifty-six cases
in the city, and a number in the sub-
urbs.

Refuse Health Certificate.
Milwaukee, Aug. 17.—The New York
health department has informed the
Milwaukee health department of re-
fusal to issue a health certificate to
Elmer and Jeanette Rosenwald, of 1463
Webster avenue, who desired to leave
to visit friends in Milwaukee. With-
out the health certificate the children
cannot leave New York because of in-
fantile paralysis epidemic.

ALLIES IN ATTACK
ON BALKAN FRONT
FAIL TO ADVANCEAllied Infantry Forces Repulsed by
Bulgarians, Says Official State-
ment From Sofia.[BY ASSOCIATED PRESS.]
London, Aug. 17.—Heavy fighting on
the Balkan front is reported in an
official statement received here today
from Sofia. The allied forces deliv-
ered strong infantry attacks, but the
statement says, were repulsed.

The fighting occurred in the region
of Lake Doiran, northwest of Salon-
iki, near the Greco-Serbian border.
Several encounters had taken place in
this vicinity of late, but the official
Bulgarian statement indicates that
larger forces are being employed
against the Bulgarians.

"On the evening of August 14,"
the statement says, "the enemy's ar-
tillery opened a violent bombardment
of our advance position south and
west of Lake Doiran. Under cover of
this shro, the enemy's infantry at-
tacked, but was repulsed."
"The bombardment continued and
on the morning of August 15, the in-
fantry again attacked with much
force, but was repulsed and compell-
ed to fall back in considerable dis-
order."

The French war office announced
last night that engagements were
frequently occurring along the
whole front. The capture by the al-
lies of railroad station at Dolran and
four villages at other points on the
front was reported.

BRITISH RESTRICT
EXPORTS TO SWEDENAll Products Must Have Guarantee of
Swedish Trade Commission Before
Passed by Customs Officials.[BY ASSOCIATED PRESS.]
London, Aug. 17.—A proclamation is
about to be issued prohibiting the ex-
portation to Sweden of all commodi-
ties, except on presentation to the
customs officials of a Swedish trade
commission guarantee. It is explain-
ed in this proclamation that the Swed-
ish war trade law of 1916, based on
illegal for a Swedish importer to fur-
nish an exporter in the United King-
dom, of information as to the dis-
posal of goods, and that therefore,
is often obliged to admit he is
unable to furnish evidence that he
has taken reasonable precaution to
insure that goods exported by
him have reached the destination
specified when the goods were
shipped, and through no fault of his
own, but owing to operations of the
Swedish law, he has been exposed to
a heavy penalty. It has become nec-
essary, therefore, to make all exports
to Sweden with a few minor excep-
tions, dependent upon production of a
guarantee assigned by the importers
and sanctioned and registered by the
proper department of the Swedish govern-
ment to the effect that both goods
and their product will not be re-ex-
ported.

GARRETSON IS BIG FIGURE IN RAILWAY MEDIATION MEE

A. B. Garretson.

One of the most important figures in the mediation of the railway transportation problem, which will arise if the demands of the 400,000 employees are not granted is A. B. Garretson, president of the railway conductors' association. Mr. Garretson was appointed during the term of office of President Taft as one of the representatives of labor on the industrial commission which investigated the working conditions of the country and which was created by congress to make more amicable the relations of capital and labor.

TRACK MEET OPENS AT WEBSTER GROUNDS

Boys Over Twelve Years Compete This Afternoon—Jefferson Team Wins Baseball Title.

The annual track meet for the boys and girls of the city playgrounds opened this afternoon at the Webster school grounds where the boys of the twelve to fifteen year old class met in five events. Tomorrow the boys of the under twelve group will contest at the Adams plot. The girls' two classes meet at the Washington school on Tuesday while the older boys clash at the Jefferson school on Wednesday. Ribbons will be given to the winners of first places in all the events. Points will be given for the winners of first, second and third places. The school having the largest total of points scored will be declared winner of the meet.

The events to be contested are as follows:
Boys' 12 to 15 Class.
75 yard dash; broad jump; high jump; basketball free throw; tennis trials to a contestant. There will also be contests in mud pitching, both in singles and in doubles.
Under Twelve Class.
50 yard dash; standing broad jump; basketball free throw; tennis trials to a contestant. There will also be contests in mud pitching, both in singles and in doubles.
Girls Under Fourteen.
50 yard dash; standing broad jump; basketball free throw; tennis trials to a contestant. There will also be contests in mud pitching, both in singles and in doubles.
Over Fourteen.
100 yard dash; standing broad jump; basketball free throw; tennis trials to a contestant. There will also be contests in mud pitching, both in singles and in doubles.

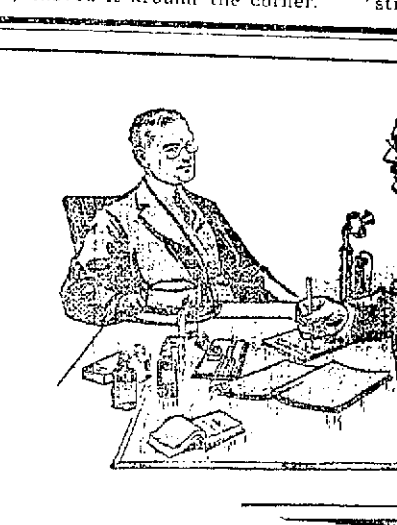

The championship game between the Jefferson and the Webster school team to decide the winner of the indoor baseball title resulted in a victory for the Jefferson team by the score of 26 to 8. The game was played throughout the Jefferson making eight runs in the first inning.

THIEVES WRECK CAR AFTER EVENING RIDE

Sharon Man's Machine Stolen Last Night, Wrecked, Costs Him Close to Hundred Dollars for Replacements.

Following an all night search of the city for an automobile stolen at ten o'clock last night from in front of the Commercial club offices, across from the Gazette building, the police this morning discovered the machine badly wrecked near the sand pit across from Buco's park. It was a five-passenger light touring car and the property of F. W. Webber of Sharon. Accessories and tires to replace those destroyed by the thieves cost Mr. Webber close to one hundred dollars today. Two tires were badly ripped and torn, the lamps were totally ruined and one front rim was bent beyond repair. In addition there were other parts to be replaced. From the appearance of the car and the amount of damage done it looked to the police that the thieves purposely attempted to wreck the machine.

The only clue to the thieves was a box of safety matches bearing a label of the Chicago Beach hotel. From this the police headed for Delavan. Dr. M. A. Cunningham reported to the police yesterday that his car was stolen. The doctor is accustomed to parking the machine on Milwaukee street in front of Rehberg's. Somebody moved it around the corner.

Man to Man--

"You say your heart is acting up, and that you don't sleep well nights, and yet you don't believe coffee hurts you."

There's a subtle, cumulative drug in coffee—about 2 1/2 grains to the average cup. A little today—a little tomorrow, and so it goes on, irritating the nerves, interfering with digestion and working changes that very often lead to ill health and discomfort.

"Hard to quit coffee, you say? Not if you have the pleasant, healthful, pure food-drink—"

POSTUM

Made of whole wheat, roasted with a small amount of wholesome molasses, it contains only the goodness of the grain—no drug or harmful ingredient—no coffee troubles.

Postum comes in two forms. The original Postum Cereal, which has to be boiled; and Instant Postum—soluble—made in the cup with hot water, instantly.

A delicious, economical, healthful table beverage—

"There's a Reason" for POSTUM

Referring to an article in this column on August 8 regarding the possibilities of the purchase of the Bush Park at the foot of South Main street for a consideration of \$25,000, that statement was erroneous. CIRCUS DAY CROWDS USE THE REST ROOM

Six Hundred Women and Children Make Use of Comfort Station on Wednesday.

That the large crowd of people in town had discovered the fact that Janesville has a rest room was demonstrated by the numbers of women and children who used the comfort station on Wednesday. Four hundred and sixty ladies called during the day. Many elderly ladies spent an hour or two resting in the comfortable chairs. About twenty were served with tea or coffee and many used the tables for luncheon service. Ladies registered from Washington, D. C., Madison, Milford, Whitefish, Delavan, Fort Atkinson, Idaho Falls, Idaho, Rockton, Ill., Baraboo, Sacramento, Cal.; Marion, Wis.; Aurora, Ill.; Lima Center, Benton Harbor, Mich.; Edgerton, Chicago, Brodhead, Footville, Woodstock, Monticello, Albion, Virden, Maniacba, and Beloit.

This shows the cosmopolitan character of the crowd on Wednesday. One party motored down from Baraboo on purpose to see the parade and the children from the Ringlings and especially interested. It was stated by them that the Ringlings never make a parade in Baraboo, so they wanted to see it here.

A letter received from Mrs. Sadie M. N. of Chicago acknowledged gratefully the benefit received by one of her party on a recent visit to the room. They were taking a motor trip through to the Delta when one of the ladies became ill and suffered extremely. While here the matron prepared a hot drink for the patient, gave her a simple remedy, and after she had rested for a time she was able to resume the journey with no discomfort.

This is only one of the pleasant things said about the local rest room.

TEMPERANCE SOCIETY IN ANNUAL MEETING

Officers of Local Union Elected at Meeting Wednesday A. P. Noon at Home of Mrs. F. H. Porter.

The Janesville W. C. T. U. held their annual meeting at the home of Mrs. F. H. Porter, 603 West Bluff street, Wednesday at 3 p. m. The union was well represented and after the considerable business relative to the 25th county convention, August 30, and 31st election of officers was held. The officers for the ensuing year are as follows: President, Mrs. Anne Ellis; vice president, Mrs. Daisy Mary M. Palmer; recording secretary, Mrs. C. J. Roberts; treasurer, Mrs. Amelia Louden. Delegates were elected to the county convention, each three delegates, exclusive of one county officers and superintendents. Mrs. Ellen Copp gave a report on the work done in the purity department. Considerable work has been done by the local union. Two state officers have visited the union and the local pastors and others have given addresses before the union, which has increased one-third in membership.

MISS META JAEKE WEDS AT SPOKANE, WASHINGTON

U. S. NAVY COXSAIN IN CITY TWO DAYS

Will Be Pleased to Discuss Navy Enlistment With Any Young Men Who Are Interested.

Coxswain Daniel J. Dailey, U. S. N., engaged in the navy recruiting service, with headquarters at Milwaukee, arrived in Janesville this morning and will remain in the city until tomorrow evening when he leaves for Jefferson. During his stay in Janesville he may be interviewed regarding enlistment in the navy either at the postoffice building or at the Grand hotel.

Although enlistments for the navy are at present one thousand men in excess of the number needed, Mr. Dailey stated that it is probable that the next congress will make provision for some 15,000 to 20,000 additional men in the service. Any young men in Janesville or vicinity who are interested in the navy may talk over with Mr. Dailey the opportunities offered. Men of all grades are accepted, the beginning salary being \$23.50 a month, outside of all expenses, with a chance of a raise of eleven dollars a month. The first year of enlistment can be passed in a short time. Machinists are offered a salary of \$44 a month and expenses to suit.

Mr. Dailey is making a tour of Wisconsin in the interest of the navy recruiting department to find out the different sections of the state. He expects to return to Janesville in about six weeks.

At Beloit yesterday Dailey received four applicants for enlistment, all of whom were rejected.

MANY TUNES AND TANGOS AT MYERS

The Old Favorite Musical Comedy, "September Morn", Pleases Circus Day Crowd.

Not by any means a grand opening, but just getting a head start, "September Morn" offered "September Morn" last night at the New Myers theatre for the benefit of the Circus day crowd. He gave the audience a little idea of what the new theatre will be like when the beautiful interior of the new playhouse is finished ready to take on the big road production.

Although shown here twice before and pretty well familiarizing the Janesville people with its merry tunes and dances, the show was indeed far from being a disappointment. It made a good fun show full of good humor, pretty costumes, scenery and snappy music.

APPLIED FOR CARD ON CARS UNLAWFUL

Placeholders Saying "License Applied For" on Cars Not Recognized Under State Laws.

Automobile dealers and owners should be careful about attempting to make a cardboard placed upon the front of a car a license. Some dealers are placing a cardboard "sign" bearing the word "license" applied for. Numerous instances have been discovered where the police have taken the cardboard as a license and have issued a license to the owner. The police have been instructed to ignore such a card and the practice has been brought to Wisconsin, evidently upon the suggestion of some Chicago dealer.

HOLD NEXT REUNION IN THE COURT HOUSE

Thirteenth Wisconsin Makes Arrangements for 1917 Gathering on Third Wednesday in August.

The next reunion of the Thirteenth Wisconsin regiment, veterans of the civil war, will be held in 1917 in the court house. It was decided at the close of the gathering at the East Side Odd Fellows hall Wednesday. The date will remain fixed, the third Wednesday in August. The court house will offer a meeting place removed from the noise and bustle of the downtown district and will offer the additional advantage of the shady park if the veterans care to use it.

FARMER AT CIRCUS RETURNS TO FIND RESIDENCE ROBBED

Thieves who entered the home of William Koebler, a farmer living a half mile west of Janesville, on a roadhouse, stole a Remington shotgun and case and a children's saving bank yesterday, according to the report made to the Janesville police department. The family was committed while the family were in the city to attend the circus. No clue was given and the family has no idea as to who the thieves were.

SHARON CAN'T SELL ITS ELECTRIC PLANT

Special Legislative Action Required
to Sell Municipally Owned Utility,
R. W. Clark Rules.

Madison, Wis., Aug. 17.—Municipal utility in Wisconsin having once accepted a utility business, cannot discontinue it except by express legislative authority.

Such is the finding in a special report to the railroad commission by R. W. Clark, of the commission's legal staff. The question was raised by the city of Sharon, which wanted to get rid of an unproductive electric light plant after it had burned down.

The leading case cited by Mr. Clark is that of the Huron Water Works company, which was held by the supreme court in 1905. In this case the city council conveyed the water works to a privately owned corporation, and the court held that the city had no power to do so.

The grounds upon which the municipal corporations are denied the power to sell are that the power is a public use and is therefore a public trust, which cannot be alienated by the express powers of the state. While the city probably possessed power of disposing of strictly private property, it is held that it has no power to dispose of the power to dispose of the city water works, constructed and owned for public use.

Mr. Clark further cites a number of cases where the supreme court has held that the power to sell is a public use, and in conclusion says: "From all of the above we are forced to conclude that the legislature has never expressly authorized a municipality to sell its electric plant, and that the city of Sharon is not authorized to do so."

DELAVAN

Delavan, Aug. 16.—The Baptist Women's Missionary society, with Mrs. Nathan Cobb as hostess, held a social at the home of Mrs. J. H. Byles and family, in Delavan, Sunday evening.

After an evening of study and prayer, the society adjourned.

Several of the young lady teachers and around Delavan are attending the "Young People's Institute" being held in Delavan the first few days of this month.

Mr. Kenneth Smith and little child, returned home from an extended visit to Chicago, Sunday.

Mr. and Mrs. Winters and little son, returned today at the home of Mr. and Mrs. Charles Winters for a short stay.

Mr. C. H. Seel arrived home today from an extended trip by auto through Ohio and Indiana. She is accompanied on her trip by her son, Rev. J. H. Byles and family.

Mr. and Mrs. William Rafferty and family are visiting at the home of Mr. and Mrs. W. Farnsworth.

Mr. and Mrs. Irene Wood and family, returned today from a visit to the home of Mr. and Mrs. J. H. Byles.

The Ringling Bros' circus train arrived through here at six o'clock this morning on the way to Janesville.

Mr. Cannon, wife and two children, returned to this city as guests of the former's parents, and brother's family.

Mr. Cannon has had charge of the manual training department in the school of Fargo, North Dakota, since the early part of last winter and expects to return to that place.

About twenty members of the Delavan Camp 6874 R. N. A. made up a band rack party and drove to Delavan Wednesday evening in response to an invitation from the camp of that place.

A delightful time is reported. Charles Chappel is residing in his home which is occupied by E. L. Gross and family.

Mr. G. H. Ellis and Mrs. Ross Ellis have as their guests Mrs. James Permen and two daughters of Goldfield, Nevada, and Mrs. Marion Puller and daughter, Elvira Dechner, of Sheboygan, Monroe county, Wisconsin.

D. P. Cannon and wife have gone for an auto tour through Milwaukee, Waukegan and other points with their friends, Mr. and Mrs. Snyder of Rockford, Ill.

Mrs. Carolyn Ryan has been entertaining a niece, Miss Thomas, of St. Louis, the past week.

The foundation for Sam Wadmond's new residence on Washington street has been raised and moved further east, as the new residence being erected by Mr. Wadmond on the corner made the space too small.

Mrs. G. H. Ellis has returned home from Janesville, where she attended a family reunion at the home of a sister, Mrs. H. H. Ryan, on Wednesday, August 9. The occasion was most interesting, as the family, who are the descendants of the late Timothy Barren of Milford, and of whom there are seven sisters and three brothers, had not met before in ten years.

Lloyd Leter was here from Milwaukee on Tuesday of this week.

Mr. Charles Dobbert of Milwaukee is visiting his mother. She is accompanied by a friend, Mrs. Mel Vogt, of that city.

ED. ENGEN HAS RUNAWAY
BUT ONLY SLIGHTLY BRUISED

Orfordville, Aug. 16.—What might have proved a serious runaway was narrowly averted on Tuesday evening when Ed. Engen, unlit by his horse, left for home, about nine o'clock. The animal, which he was driving, made a quick start and in some way captured the buggy, throwing Engen out and pinning him between the buggy and an automobile that was standing near the curb. After breaking the shafts of the buggy, the animal made a bee-line for one of the large plate glass windows in Hanson's hardware store, but fortunately lost its footing on the cement walk, and was caught without doing serious damage. The driver was only slightly bruised.

Ed. Compton and her mother are spending a few days with friends in Beloit.

The usual crowd went to Janesville on Wednesday morning to see the great show. Many went by automobile, thus reducing the usual crowd of railway passengers.

Elmer Wee has gone to Beloit, where he has accepted a position as baggage man at the Chicago and Northwestern depot.

NATIONAL BISCUIT COMPANY

The Madison Rotary club, consisting of a dozen or more automobiles and accompanied by a string orchestra, stopped in the village for a short time on Tuesday afternoon and extended to the people a cordial invitation to attend the tractor demonstration to be held at Madison. A part of their entertainment consisted of a colored vocalist, who pleased the hearers with songs.

Charlie Caught a Foul.

While witnessing a ball game at the Plymouth picnic on Tuesday afternoon, Charles Taylor was struck by a foul ball and quite severely injured. The ball was a "foul tip" and struck Mr. Taylor squarely between the eyes, breaking his glasses, but fortunately not injuring his eyes. One of the small bones of the nose was fractured, but the victim of the accident feels that he escaped very lightly for a foul ball of that size and speed.

Aside from a badly discolored face and a cut across the bridge of the nose, caused by the glasses, Mr. Taylor was little the worse for the accident the following day.

MARKETING AND FARM CREDITS
CONFERENCE SEEK TO CHECK
"BILLION DOLLAR WASTE"

[SPECIAL TO THE GAZETTE]

Chicago, Aug. 17.—How to check the billion dollar waste in the marketing of farm products will be the dominating theme of the fourth national conference on marketing and farm credits, called today to meet in Chicago December 4 and 5.

Farmers of all states are expected to unite in a discussion of ways and means to remedy a situation termed

"wasteful and iniquitous in the extreme" by the committee in its meeting notice.

Surveys will be made prior to the winter gathering that will show the movement of crops such as livestock, grain, cotton and hay. The whole problem and its relation to city distribution will be worked out.

Practical plans will be drawn for eliminating waste, improving farm products and increasing the consumption of certain farm crops.

Half of the conference work will be devoted to rural credits and the federal farm loan act will come in for its share of criticism.

The delegates will analyze the scope and limitations of the act, said Secretary Charles W. Holman of Madison, Wis., today.

And when they are through the American farmer will know what to expect under its terms. Contrary to the general belief, this act does not solve the rural credit problem. It is a beginning, but a crude one. It may prove to be all-inclusive in a number of states where federal jurisdiction will clash with existing homestead laws.

"Nor does the act touch even remotely the question of personal credit and it is a long way from striking at the great problem of turning tenants and landless men into home owning farmers."

How to adjust state laws to harmonize with the act will be shown by speakers at the conference. Aid for the landless man and the immigrant will be discussed. We expect delegates from every state in the Union and from Canada. The feature of the winter sessions will be securing the needed information. The results of careful investigation and long experience will be presented on practical problems of the farmer.

Farmers organizations will be invited to send men to tell their troubles.

The conference is an open forum now in its fourth year. It is non-partisan. Its deliberations are followed from year to year by committees and special bodies working for the delegates.

Many Prominent Stock and Poultry Fanciers Have Entries at Evansville County Fair This Week.

Evansville, Aug. 17.—The poultry exhibit at the Big Rock County fair is the best and most complete show by far ever shown in the state.

Through the untiring efforts of Superintendent Wilder everything pertaining to raising of poultry including incubators and flocks of poultry food and eggs are being shown.

The extremely large number of entries is due in some measure to the fact that Evansville is paying \$1.00 for 1st and 2nd prize premiums on single birds and besides giving \$100.00 in special premiums.

Charles Edward Co. of Chicago are feeding the entire show free. The Pratt Poultry Food Co. are giving numerous special prizes on poultry.

Several car loads of chickens are on exhibit and the quality of the birds is the best the largest exhibitors coming from Ft. Atkinson, Barab, Mauston, Port Washington, Janesville, Beloit, Stoughton, Albany, Brodhead, Footville and Evansville.

Among the entries in car load lots is E. G. Roberts of Ft. Atkinson. The egg show which is decidedly novel is unusually good, the entries being light and dark shell eggs being large.

The feather guessing contest which is an innovation in this department, is attracting the attention of poultry dealers and a large number of contestants are being registered daily.

To the one guessing most accurately the number of feathers is given a pair of blooded chickens, their equivalent in money for poultry feed. Five premiums are given.

Notwithstanding the earliness of the season the exhibitors in agriculture and horticulture are exceedingly large.

The exhibit of machinery this year is the best and largest ever placed on grounds through the untiring efforts of Superintendent G. C. Roberts.

Large automobile exhibits are being made by F. Hyne and son and R. B. Townsend. The Townsend tractor from Janesville is attracting unusual attention.

The exhibit by the Wisconsin Live Stock association is attracting an unusual amount of attention and every farmer in the county should visit this. Lectures are given daily on animal husbandry.

The exhibit of James Van Elta's cattle and fine stable horses are other exhibits which prove of unusual interest to fair goers judging from the attention these exhibits are receiving. These exhibits were prize winners at the Panama exposition.

J. C. Robinson is also on the grounds with his famous display of Herfords.

The free attractions given before the grandstand were good ones.

The young folks enjoyed the pony races and extra tournaments staged for their amusement yesterday.

In the pony race yesterday Glenn Nesbit received 1st prize, Lyle Ward received 2nd and Mat Larson 3rd.

The ball game yesterday between Evansville and Magnolia resulted in a score of 2 to 10 in favor of the latter.

Friday's racing program consists of a 3 year old pace, 2:25 pace, 2:30 trot.

At 12:30 Friday noon Senator Kenyon of Iowa and F. C. Howell, republican candidate for nomination of State Senator for this district will speak on the fair grounds.

On the Spur
of the Moment
ROY K. MOULTON

Easy Street.
The things you hear on Easy Street
Would give you a good idea of
the things that are going on in
the mind of the average voter.
And quite the place to live.
We credit it with pomp and wealth
in making up the sheet.
But it is all business and wealth
Confined to Easy Street and wealth
Not on your life—no put the thing
in terms denoting heat.
Phew! work is done and folks have fun
Afar from Easy Street.

The Doc.
This fellow sits up nights to think
what he can make his patients drink
to cure their ills. He fills a
glass with horrid dope, that tastes
like coal tar mixed with soap, to al-
ternate with pills. At other times
he takes a knife and threatens them
and there your life with uncertainty
supreme; and if he fears you'll raise
a howl, with chloroform upon a
towel he chokes attempts to scream.
He says, "Oh, no, you will not mind,
I'll aim to be in the hospital."
He proceeds to trim; he sinks his lance
clear to the bone, you'd give a mil-
lion could you own one chance to
walk him out. You are anchored to
the table bound around with two
inch cable and so what chance have
you? You may well sink black and
grim and let him cut and scrape the
bone until he says he's through.

Some Nature Fakes.
The wolf at the door.
The bee in the bonnet.
The bulls, bears and lambs of Wall
street.
The fly in the ointment.
The cat-o-nine-tails.
The dose of war.
The bull in the china shop.
The rat in the hair.
The Welsh rabbit.
The dog in the manger.
The snake in the grass.
The bug in the car.
The stag party.
The round robin.

Reversible Opinion.
Hod Bink's said down to the store,
and he has said it in a way—
He said it just the other day.
And said it with a lot of steam,
It went as hard as a hammer.
He don't want whimsy for to vote,
"Would be a dickens of a noise
If women ever should get hold
And let the vittles all get cold
By hagin' round on polls for hours
An' tryin' to upset the power."
That he in this here mighty land,
He wants us all to understand
He's dead again if from the start,
No clock suffice for his part.
His better half will never mix
Up in no gold-dam politics;
He'll see to that, for he's the boss.
He says the subject makes him cross.
Them's his sentiments, he gum:
The women folks should stay at
home.

That's what he said down to the
store;
He'd said it many times before.
His style of argument is such.
We think he doth protest too much.
For some of us who have been round
Within an easy sight and sound
Of Hod Bink's house when trouble's
rife,
Know pretty well about his wife.
He'd laid off his steam to us
But round home he don't make no
fuss.
You'd think to hear him talk to her
That he win't let her win.
To see her vote for president.
And that he would then die content.
He'd let it and he'd let it strong;
He'd let her had much right along.
He'd let her have the power to
And tell her that she ought to have
The rights men have had in the past.
You see Hod really doesn't fuss
Say nothing that don't please her
whims.

(This week's mystery.)
Late in the afternoon, two boys
ran up Glick's Lane. They were not
ordinary boys—there was something
odd about them. Close inspection
would have revealed that the one who
was not a boy was entirely bald, and
that the other had absolutely no legs.
In a short time they were followed
by two men. The men, too, were
rather odd of the ordinary, for one
watched on his hands and the other
moved with a rapid revolving motion,
at the same time giving a rather good
imitation of a whistling cowbird.

Almost on the heels of the men
came two women—women rather odd
of the usual run, inasmuch as one
kept shouting out that she would never
lose forty again, and the other kept
losing her right slipper and replacing
it from an apparently inexhaustible
supply which she carried in a large
paper bag.

Shortly before dusk, the boy with
the bald head reappeared. His gleam-
ing pate had turned snow white from
fright.

"It's nothing but a blind alley!" he
gasped, and ran for dear life. The
others were never heard from.

Washington County Agriculturalists
Find Crop Very Profitable With
War Time Prices.

(SPECIAL TO THE GAZETTE)
West Bend, Wis., Aug. 17.—Farmers
of Washington county gathered here
today to review the year's work and
examine numerous valuable tests
which have been made this season.
The gathering was held in connection
with West Bend's home coming.

Reports of results from tests with
hemp were made which indicates that
this crop may be grown in conditions
found in Washington county as well
as in the area near Grand Lake and
Fond du Lac counties. This is becom-
ing one of the important crops of the
state since war time prices are being
paid.

Stundun grass, the "camel" of the
grass family, was also grown suc-
cessfully, yielding a heavy forage
crop in a dry season. Soy bean cul-
ture and the results of tests were also
shown the farmers.

Soy beans are becoming a favorite
with the farmers as a hay, pasture,
silage and manuring crop. It can
withstand cold better than corn, cow
peas or field beans. All classes of
ordinary soil are adapted to its cul-
ture, but peculiarly fitted for build-
ing up worn and sandy soils.

Discussions of varieties of seeds
best adapted for planting in this sec-
tion of the state, methods of harvest-
ing and comparative studies of plots
of seeds sown at different times and
different rates, were taken up at the
meeting.

JAPAN PLANS TO BUILD
26 NEW-BATTLESHIPS
AND MANY SUBMARINES

(SPECIAL TO THE GAZETTE)
Tokio, Aug. 17.—Japan plans to im-
prove her navy as fast or faster than
does the United States build up its
sea fighting machine. At least, that is
the deduction made by the Japanese
people from the just announced plan
to spend 254,000,000 to 310,000,000 yen
building new battleships in the next
seven years.

Exactly what the plan under consid-
eration by the finance department of
the government is, nobody knows, but
according to the paper Jiji, usually a
well informed publication, the outlay
for "the ideal fleet" calls for about
\$150,000,000. Other papers' estimates
are a bit lower.

A hot debate on the program is ex-
pected at the forthcoming session of
the Diet because of the expense involv-
ed. The program is backed by navy
leaders and also, it is said, by the min-
isters of marine and finance.

Newspaper reports have it that
Japan proposed to build a superdread-
nought, 2 battle cruisers, 11 light
cruisers, 10 destroyers, and many U-
boats.

BROTHERS GIVE BLOOD IN
VAIN FOR TYPHOID VICTIM

NEPHEW OF LANSING
TAKES OFFICE IN INDIA
UNDER U. S. AMBASSADOR

Vienna, Aug. 17.—Allen Walsh Dales,
a nephew of Secretary of State Lan-
sing, and a grandson of the former
Secretary of State, John W. Foster,
has arrived in India to take a position
as a third secretary under the Ameri-
can ambassador, Frederick C. Penfield.

Mr. Dales, who, though but 23 years
old, has already had an unusual edu-
cational career and who has been pro-
fessor at a university in Vienna, had
cherished the thought of a diplomatic
career for some time, but he never let
his hopes be known for fear that any
appointment he might receive would
lay him open to the charge of favoritism
on the part of his distinguished uncle.
Therefore, in taking his examina-
tion he did not enter his name, but
more a number, and revealed his
identity only when it was definitely es-
tablished that he had obtained the
highest percentage of the thirteen can-
didates who competed.

By an odd coincidence he comes to
Vienna for his diplomatic start with
Mr. Penfield for his preceptor and in-
structor. Mr. Penfield in turn accords
to Dales' grandfather, John W. Foster,
all the grand work of diplomatic knowl-
edge which he possesses.

THE DOUGHNUOT.

There is always a hole in that
doughnut. Look for the hole and do
not be so pessimistic. Do not deplore
the fact the potato crop is poor, but
remember the grain crop was excep-
tionally good. Do not deplore the
lack of a bumper corn crop but think
of the price paid for tobacco. Do not
complain about the burnt up meadows,
but think of the hay crop, more abun-
dant than in years past. Do not talk
of an early frost and high prices, but
remember the prices paid for hogs,
for cattle and for sheep.

Being a pessimist does not pay. It
makes you feel good and all the time
you come in contact with. Old Dame
Nature sort of equalizes things after
all. If one crop is not as good as it
might be another is better. If the
early tobacco turns out poor the older
planted crop is always worth more
than you expected. If the corn is not
as good as it might be, the silo will
be filled just the same. If pastures
dry up a rain will come and make
them green again.

Look for the hole in the doughnut.
Do not take life too seriously. Re-
member the Land of Egypt went
through seven years of plentiful har-
vest and then seven years of bad har-
vest and the Children of Israel were
led into bondage because of it. They
were not optimists, they were pes-
simists, and when they sought to escape
that bondage they had a hard time.

There had to be two plagues of un-
avoid damage, killing of first born, and
finally even the opening of the Red
Sea for their passage across and still
they were pessimistic and wandered
for forty years until their descendants
saw the Promised land.

Be an optimist. See the best that
is to be seen. If the day is hot it is
good, even weather. If it is cool it
helps something else to grow and do
not wear a sweat on your brow for it
will all come right when it is placed
in the great crucible.

If you'd successfully borrow,
Don't overdo it, I pray.
Always put off till tomorrow,
These you have done today.

(This week's mystery.)
Late in the afternoon, two boys
ran up Glick's Lane. They were not
ordinary boys—there was something
odd about them. Close inspection
would have revealed that the one who
was not a boy was entirely bald, and
that the other had absolutely no legs.
In a short time they were followed
by two men. The men, too, were
rather odd of the ordinary, for one
watched on his hands and the other
moved with a rapid revolving motion,
at the same time giving a rather good
imitation of a whistling cowbird.

Almost on the heels of the men
came two women—women rather odd
of the usual run, inasmuch as one
kept shouting out that she would never
lose forty again, and the other kept
losing her right slipper and replacing
it from an apparently inexhaustible
supply which she carried in a large
paper bag.

Shortly before dusk, the boy with
the bald head reappeared. His gleam-
ing pate had turned snow white from
fright.

"It's nothing but a blind alley!" he
gasped, and ran for dear life. The
others were never heard from.

PHILIPP HAS CROWD WHILE OPPOSITION DRAWS A HAND FULL

Governor Wins Out in Political Speech Making at Appleton Against Trio of La Follette Celebrities.

[SPECIAL TO THE GAZETTE]

Appleton, Wis., Aug. 17.—Gov. Philipp and the La Follette faction came to a test of their respective strength here Wednesday night, and the governor emerged from the test with flying colors.

Competing against a triple array of speakers, Senator Hutton, La Follette candidate for governor, Senator George W. Norris of Nebraska, one of the speakers who came to Wisconsin to aid the La Follette campaign for re-election, and Lieut. Gov. Dittmar, Gov.

Philipp, speaking at Armory G., drew a crowd of more than 600 persons while the La Follette orators, speaking from a platform in the courthouse square, had an audience of less than 100 persons.

Gov. Philipp told his audience that a deliberate attempt is being made to deceive the people in the matter of the tax reduction by taking the entire gross levy of the state, which includes all local taxes such as city tax, school tax and county tax and various levies made by the people themselves; and that this total was used to disprove the statement made by him that the state levy had been reduced under his administration. He again stated that the state government has no control over local taxes and should have none.

Bosshard is Overthrown.

Gov. Philipp said it was not clear to him why the La Follette faction discarded Senator Bosshard and took up Senator Hutton. That Senator Bosshard, he said, had been a consistent "progressive" and fought every measure in the last legislature that was calculated to aid the present administration in carrying out its promises to the people, and had served the La Follette organization faithfully.

Gov. Philipp stated further that the same element of politics out of office that fought him two years ago is fighting him now; that they scoffed at the idea of lower taxes then—now they are all on the tax reduction platform as a matter of political expediency. He said that he compelled the progressives and progressive democrats as well, to embrace the principle of greater economy in government and by their opposition to him have kept it a live issue before the people.

Favors Federal Regulation.

Gov. Philipp declared that government regulation of railways must be accepted as the settled policy of the country. It would seem, he said, that such regulation should be conducted by one central head. He said that railway regulation to be complete in its services to the people must not only guarantee rates, but service as well, and further said that railway regulation to be as complete and effective as it should be, it must be possible to enforce justice in the matter of hours and compensation to the employees without compelling them to resort to strikes that will tie up the entire business of the country.

Gov. Philipp's itinerary for the remainder of the month is as follows: Thursday, Aug. 17, Oshkosh; Friday, Aug. 18, Waukegan; Saturday, Aug. 19, Waukegan; Sunday, Aug. 20, Waukegan; Monday, Aug. 21, Waukegan; Tuesday, Aug. 22, Watertown; Wednesday, Aug. 23, Watertown; Thursday, Aug. 24, Watertown; Friday, Aug. 25, Watertown; Saturday, Aug. 26, Watertown; Sunday, Aug. 27, Watertown; Monday, Aug. 28, Watertown; Tuesday, Aug. 29, Watertown; Wednesday, Aug. 30, Watertown; Thursday, Aug. 31, Watertown.

Edinburgh, Scotland, Aug. 17.—The three days session of the annual meeting of the Society of Chemical Industry of Great Britain would in the future largely break away from its dependence on Germany and other countries, according to a statement made here today.

The statement was made by a representative of the British chemical industry, who said that the industry was now in a position to produce a large number of chemicals which were formerly imported from Germany and other countries.

The statement was made in connection with a report on the progress of the industry during the year 1915-1916.

Notices furnished by the theatres.

AT THE BEVERLY TONIGHT.

Robert Edeson in "Fathers of Men." The Blue Ribbon feature, "Fathers of Men," to be released by the Vitaphone Company of America in six parts at the Beverly tonight, is a series of thrilling events.

The story calls for his wife to run away with another man while he is journeying to a far part in order to save his little son, who has been hurt in an accident—his return to find the house empty gives manifold opportunities and Mr. Edeson avails himself of every one.

His determination, strong will and broad sense of right and wrong is clearly impressed upon his audience as he makes a vow to avenge the injustice which has been done him.

In addition to this feature, motion pictures showing the departure of the German submarine Deutschland, from Baltimore will be shown.

AT MYERS THEATRE.

One of the most notable engagements for the present season at the Myers is that of Milton Schuster and the Graces of Musical Comedy who will present one of the popular musical comedy successes. The engagement will be for three nights, starting on Sunday night, August 20. It is one of the musical comedy sensations of the present season and is being presented in the principal cities and on one night stand with company equal to the one that was one year in New York City at the Hudson Theatre. During the engagement in Janesville the bill will be changed nightly.

AT THE BEVERLY FRIDAY.

"Sally in Our Alley." Muriel Ostriche, one of the most popular young stars, and one who is really and truly young, will be the attraction at the Beverly theatre on Friday when she will be featured in a World Film photoplay, "Sally in Our Alley," with Carlisle Blackwell, the Prince of

"I see," said Mr. Jeffris, "that Senator Norris, one of the imported La Follette orators, spoke in Ripon, and that he talked against the party which gained lasting fame as a party of postoffice so that its appropriation of \$75,000 could go to prepare this country for defense. I wonder if the man he was talking. The patriot in Ripon is known to nearly everyone else in the country."

Mr. Jeffris will spend Thursday and Friday night at Watertown, and will speak at Watertown on Saturday and will close the week at Beloit Saturday night.

COMMON SALT STOPS BAD SWEATS OF NIGHT

German Scientists Discover New Use for Common Household Food—Also Use It on Feet.

Berlin, Aug. 17.—Encouraging results from the administration of common salt as a remedy against night sweats and against excessive perspiration in the case of marching soldiers are reported by Company Surgeon Link in an article in the Munich Medical Weekly.

Sweat contains about six parts of salt in the thousand. A hard march of a few hours on a hot day results in the excretion of five to six liters of sweat with a salt content of 24 to 30 grams. A strong night sweat of a soldier may contain as much as 2 1/2 liters, causing a salt loss of 60 to 70 grams. This amount is far from unimportant, since the blood contains salt in only about twenty grains at the maximum daily consumption of salt in food.

Dr. Link's first experiments were with soldiers suffering from tuberculosis. It occurred to him that their excessive fatigue mornings might be due to the loss of salt, and that this might be counteracted by a salt ration. He began by giving a level teaspoonful of salt (about 12 grams) in a small glass of water just before patients retired. The result was a greater freshness and absence of sweat, but the patients either had no night sweats or else very slight ones. All patients except those suffering also from stomach catarrh and high fever stood the salt dosing without any ill effects whatever.

This experience led Dr. Link to experiment with healthy persons, and especially soldiers. About 100 soldiers of one regiment were given a teaspoonful of salt at 6-8 o'clock in the morning before beginning their day's march. After a march of nearly twelve miles in muggy weather the soldiers thus dosed had no night sweats, and their perspiration was but a fraction of that of the others.

O'Hara, chairman of the Oregon State Commission on the Minimum Wage.

BOILER EXPLOSIONS UNSUSPECTED PERIL

State Commission Endeavoring to Lessen, by Rigid Inspections, Dangerous Public Menace.

Madison, Wis., Aug. 17.—How the industrial commission is successfully guarding workers and the general public by keeping watch over steam boilers is shown in a recent compilation bearing on this aspect of the department's work. As a rule the public at large is hardly conscious of the fact that boilers in the industrial centers are all around them and under them (in cellars) and that if one of them "lets go" it may kill and maim many people. The danger is not an immediate vicinity. The strange freaks of boilers are known only to experts. Once in a while when one explodes the public, through spectacular newspaper reports, is apprised of the power of one of these black, round, grunting giants of industry. When one does explode there usually follows, in the wake of the funerals, a hue and cry to the effect that "something ought to be done about it."

While this function of the commission in normal times affords little of interest to the layman, it has an important bearing on the safety of society and the prevention of "mussy" deaths. The only way to prevent boiler explosions is to inspect the boilers so frequently that the owner may be assured that they are in perfect condition. To the inspection must be added constant care of the boiler tender or fireman and engineer. A minute's lapse of a boiler fireman may result in a sudden crash and a hurtling through the air of a projectile which for size and power for damage makes a German projectile look like the cork out of a pop gun.

In the year ending June 30, 1916, the commission received reports of inspections on 16,623 boilers in Wisconsin. All but 750 were inspected by boiler insurance companies which are required to follow the code laid down by the industrial commission. Uninsured boilers are inspected by the commission for a fee fixed by law. The boiler inspection law is aimed particularly to maintain safety for workers and the public. Indirectly, however, it is a saving to business owners because their boilers, through frequent inspection are maintained at a high point of efficiency.

Perfect Philosophy.

And as for me, let what will come, I can receive no damage from it, unless I think it a calamity; and it is in my power to think it none, if I so decide.—Marcus Aurelius.

AT THE BEVERLY ON FRIDAY.

Popularity. This is a play in which both stars have excellent opportunities to show their mettle, and, needless to state, they take every advantage offered them to show why they are at the top of the ladder of motion picture favorites. Their work and the play itself will be a matter of great admiration by all who see this wonderful play when it is shown in this city.

Let Me Send You My Treatment For Catarrh Free

C. E. GAUSS.

I Will Take Any Case of Catarrh, No Matter How Chronic, or What Stage It is in, and Prove ENTIRELY AT MY OWN EXPENSE, That It Is Curable.

Treating Catarrh has been my business for years, and during this time over one million people have come to me from all over the land for treatment and advice. My method is original. I treat the disease by first removing the cause. Thus my combined treatment cures where all other methods fail. I am a specialist in just a few days' time that are needed to cure, cure and cure, because it is the cause of the disease that causes Catarrh. Send your name and address at once to C. E. Gauss, and he will send you the treatment referred to. Fill out the coupon below.

Train Your Hair as an Actress Does

No class of people devotes as much time to beauty as do actresses, and naturally no class must be more careful to retain and develop their charms. In any career there develops the information that in hair care they find it. Courtesans and actresses, instead they have studied to find the first personification of the beauty of the hair. The majority of them say that to have the hair wash and scrub a matter that is known, get a package of carbox from your druggist, dissolve a teaspoonful in a cup of water and your shampoo is ready. It costs less than three cents for this shampoo. After its use the hair dries rapidly, with uniform color. Dandruff, dandruff and dirt are dissolved and entirely disappear. Your hair will be so soft that it will look much better than it is. Its lustre and softness will also delight you, while the standard scalp gains the health which means hair growth.

"This place is too grand for me," Lorelei objected.

"Oh, offer your own price for Gertrude's after you like it. They're crazy for tenants. It's cheaper than hotels—if you want to save money."

Lorelei was surprised to find her friend's quarters not only richly but lavishly furnished. The decorations were harmonious and bespoke a reckless disregard of cost. A duffy Japanese spangle with protruding eyes and distorted visage peeped deliciously at its mistress's feet.

But the objects that intrigued the visitor most strongly were several paintings. They were of a kind she had seldom seen, and in the afternoon light one stood out with particularly startling effect. It was a dusky landscape; there was a stream, a meadow edge, trees just growing black against a dying sunset, a herd of cattle coming out of the west. Before this picture Lorelei paused, staring with wide eyes of wonder.

Lilas flung her hat carelessly into a chair, lit a cigarette from a Tiffany humidor, then turned with the spangle in her arms and beholding her guest with rapt, upturned face, remarked, with a laugh:

"Looks like the real thing, doesn't it?"

"Oh—it's wonderful—so clean and cool and quiet! I've seen cattle in Yale that looked just like those, when I went barefoot in the grass."

"Some Dutchman painted it—his name's on the corner. He's dead now, I believe. It used to hang in some museum—I forget where. I like pictures of women best, but—"

She shrugged and left the sentence unfinished. "There's a dandy in my bedroom, although it didn't cost half as much as that barnyard thing. The frame's a foot wide and covered with solid gold."

"I had no idea you lived like this," Lorelei purred through a pair of French doors and into a perfectly appointed library, with a massive mahogany table, deep lounging chairs, a writing desk, and a dome-crowned reading lamp.

"My study," Lilas laughed, shortly. "That's where I improve my mind, not. The books are deadly. Now come; Hittichy Koo must have dinner ready. His name isn't Hittichy Koo, but it sounds like it, and he's the cutest little thing; got the cutest little swing." She moved down the hall, humming the chorus of the senseless popular song from which she had quoted.

Everywhere was the same evidence of good taste in decoration and luxury of equipment, but a suspicion had entered Lorelei's mind, and she avoided comment. Hittichy Koo was cook, butler and house-boy, and in view of Miss Lynn's disorderly habits it was evident that he had all he could do to keep the place presentable. His mistress ate without appetite and in a hypercritical mood that took no account of the wasteful attempts to please her. Quite regardless of the patient little Jap, she found fault with him savagely, so that Lorelei was often painfully embarrassed.

"So you like my home, do you?" she queried, after a time.

"I've never seen one so beautiful," Lilas nodded. "Hittichy sleeps out, and that leaves me the whole place. Jarvis furnished it, even to the books, and I'm studying to be a lady." Again she laughed mockingly. "I make a bluff at reading, but so long as I talk about Napoleon he never thinks to question me. I know that French gink backward."

"I wish I had a hobby—something to interest me, something to live for," said Lorelei, lamely.

"Yes. It gives you something to think about when you're alone. It helps you to stand things." For the first time Lilas showed a trace of feeling in her voice; she dropped her chin into her palm and, leaning upon the table, stared as if at a vision. Her dark eyes were somber, her brows were lowered and drawn together.

The slipshod informality of the meal, the constant faultfinding of the hostess, made it something of a trial. Lorelei was not sorry when it was over and Lilas took her to look at the va-

cant dat.

Miss Moore's apartment offered a wide contrast to the one they had just quitted, being very small and very modestly furnished; but it was on the second floor, convenient to both elevator and stairway, it boasted a piano, and the superintendent allowed his prospective tenant to name her own terms. She descended with relief, feeling that she had made not a bad bargain.

"She stated, as she sank into Lilas' big library chair, 'I feel quite independent at last. The rent is ridiculous, and I can do my own cooking.' 'Don't make a fool of yourself. You can do as well as I've done. You have the looks.' 'But I'm not engaged to a multimillionaire.'"

"It seems queer, when I think of it," Lilas mused. "Jarvis is one of the richest men in New York, and he made his money out of the steel business—the business into which I was born. Have you ever been through a mill?"

"No."

"It's wonderful, terrible. I can smell the hot slag, the scorching clinkers, the smoke, to this day. Some nights I wake up—screaming. It's so vivid. I see the glare of the furnaces, the belching flames, the showers of sparks from the converters, the streams of white-hot metal, and they seem to pour over me. I have the same dream always; I've had it ever since the night after my father was killed."

"You told me he was killed in a steel mill."

"Yes, before my eyes. I saw it," Lilas shuddered. "I was a little girl then, but I've never forgotten. We were poor, dreadfully poor, like all the Jews—Oh, yes; didn't you know I'm a Jew?"

"Then 'Lilas Lynn'—?"

"Stage name. It's really Lily Lovinski. We were Polish. I was dragged up, along with the other workmen's children, in the soot and grime of the Pennsylvania mills. 'Hell' must be like those mills—it couldn't be worse."

Lorelei had never heard her roommate speak with such feeling nor in such a strain. But Lilas seemed quite unconscious of her little burst of eloquence. She was seated, leaning forward now with hands locked between

her knees; her eyes were brilliant in the gathering dusk. Her memories seemed to affect her with a kind of horror, yet to hold her fascinated and to demand expression.

"I was an imaginative kid," she continued.

man. It was because of their great fear of him and his furious urging that—something happened."

Lilas had begun her recital slowly, without apparent object, but once into it she seemed unable to stop; and now, although her words came haltingly, it was plain that she had worked herself into a sort of hysteria in which she gave little heed to her hearer. It was characteristic of her that she could so excite herself by the power of visualization as to be completely transported.

"Something went wrong overhead; anyhow, the converter dumped too soon. Men were working directly underneath, farther among the rest. I saw him go down under a stream of liquid steel."

Lorelei's horrified exclamation went unnoticed; Lilas' voice was shrill.

"Yes. He was blotted out, right before my eyes, in an instant. In the time it takes to snap your finger, he—and the others—were gone, changed into smoke, into absolute nothingness. There was no insurance, and nobody took the blame. Another Jew family, a few more widowed and fatherless foreigners, among that army, meant nothing. I've never forgotten that dark, nor the figure of that shouting, swearing man who came through the Bessemer mill crying for more speed, more speed, more speed."

"I suppose I was too little to make any foolish vows of vengeance, for I was only a ragged mite of a child among a horde of slaves, but when I grew older I often dreamed of having that man in my power, and—making him suffer. Who would—who could have imagined that I'd ever be living on money wrung from the labor of men like my father, and be in a position to meet that man on an equal footing? I never did—not in my wildest moments, and yet—here I am—and the day of reckoning gets closer all the time."

She ended with an abruptness that evidenced her agitation. Rising, she jerked a beaded chain that depended from the center lamp, and the room was flooded with mellow light; then she drew out the table drawer at her guest's elbow, and with sinking hands selected a small box from the confusion within. Lorelei recoiled at the sight of a revolver hidden among the disorder.

"Goodness! I hope it isn't loaded," the latter exclaimed. "Your story gives me the creeps and that thing—seems to fit in."

"It's loaded, all right. I keep it for protection. I don't know why I told you all this," she half apologized to Lorelei. "It has upset me, as it always does."

"How did you ever grow up and—educate yourself?"

"I hardly know. I filled out when I began to get something to eat, and I developed a good figure. Finally I got to be a model. I was quick to learn, and when rich dames came in I watched them. I became good-looking, too, although not so pretty as I am now, for I couldn't put the time or money on it. Then I came to New York. The rest isn't a pretty story."

Miss Lynn made this declaration calmly as she busied herself with the glass her servant had fetched. She dissolved a portion of the powder she had taken from the box in the spoon, then carefully transferred the liquid into the cap of a pearl-and-gold fountain pen. Inserting the open end of the receptacle into first one, then the other nostril, she inhaled the contents.

"What are you doing?" asked Lorelei curiously.

"Nothing to quiet my nerves. I wonder why I told you all this?" She eyed her guest speculatively, then shrugged. "Well, since we're to be neighbors, we must be friends, and there's no harm done. Now that Jarvis and I are engaged, he's awfully particular about the company I keep, but he likes you. How different they act when they're in earnest! He even wants me to quit work now, but I like the excitement—it's better than waiting." She glanced at her wrist-watch and drew herself together. "Our time is up, dear; we must get back to the show-shop."

CHAPTER XII.

Lorelei exploded her bomb at breakfast Sunday morning, and the effect was all she had dreaded. Fortunately Jim had gone out. The girl's humiliation at Morkle's disclosure and her merciless accusations left little to be said in self-defense. Of course, the usual tears followed, likewise repetitions of the time-worn plea that it had all been done for Lorelei's own good and had been prompted by unselfish love for her.

"I'm beginning to doubt that," Lorelei said, slowly. "I think you all look upon me as a piece of property to do with as you please. Perhaps I'm disloyal and ungrateful, but—I can't help

it. And I can't forgive you yet, when I can't come home again, but it's impossible for me to live here now feeling as I do. I want to love you—so I'm—going to run away."

Tragically, through her tears, Mrs. Knight inquired: "What will become of us? We can't live—Jim never does anything for us."

In Peter's watery stare was abject fright. "Lorelei wouldn't let us suffer," he ventured, tremulously. "I'm sick. I may die any time, so the doctor says." He was indeed a changed man; that easy good-humor that had been his most likable trait had been lost in habitual peevishness.

"I'll keep the house running as before," his daughter assured him, "and I'll manage to get along on what's left. But you mustn't be quite so extravagant, that's all. I shan't be—and you wouldn't force me to do anything I'd regret, I'm sure." She choked down her pity at the sight of the invalid's puffy face and flabby form, then turned to the window. Her emotion prevented her from observing the relief that greeted her words.

Aniline Poisons the Eye.

When sharpening a colored pencil, be careful not to get any of the dust into the eye. Many such pencils are dyed with aniline, and several cases of severe injury are reported. In the Archives of Ophthalmology, Dr. R. J. McCurdy tells of a young woman who not only had the white of her eye stained blue, but who had to have an operation performed to separate the lower lid from the eyeball, these having grown together in the healing of the sore produced by the aniline.

Rubber at Once Found Favor.

Rubber was introduced into the United States in 1800, which, by an odd coincidence, was the year of Charles Goodyear's birth. Half a century later a Boston navigator brought from Brazil a number of pairs of boots which had been coated with the coagulated milk of the rubber trees. Their popularity was immediate, on account of their imperviousness to water.

She shrugged and left the sentence unfinished. "There's a dandy in my bedroom, although it didn't cost half as much as that barnyard thing. The frame's a foot wide and covered with solid gold."

"I had no idea you lived like this," Lorelei purred through a pair of French doors and into a perfectly appointed library, with a massive mahogany table, deep lounging chairs, a writing desk, and a dome-crowned reading lamp.

"My study," Lilas laughed, shortly. "That's where I improve my mind, not. The books are deadly. Now come; Hittichy Koo must have dinner ready. His name isn't Hittichy Koo, but it sounds like it, and he's the cutest little thing; got the cutest little swing." She moved down the hall, humming the chorus of the senseless popular song from which she had quoted.

Everywhere was the same evidence of good taste in decoration and luxury of equipment, but a suspicion had entered Lorelei's mind, and she avoided comment. Hittichy Koo was cook, butler and house-boy, and in view of Miss Lynn's disorderly habits it was evident that he had all he could do to keep the place presentable. His mistress ate without appetite and in a hypercritical mood that took no account of the wasteful attempts to please her. Quite regardless of the patient little Jap, she found fault with him savagely, so that Lorelei was often painfully embarrassed.

"So you like my home, do you?" she queried, after a time.

"I've never seen one so beautiful," Lilas nodded. "Hittichy sleeps out, and that leaves me the whole place. Jarvis furnished it, even to the books, and I'm studying to be a lady." Again she laughed mockingly. "I make a bluff at reading, but so long as I talk about Napoleon he never thinks to question me. I know that French gink backward."

"I wish I had a hobby—something to interest me, something to live for," said Lorelei, lamely.

"Yes. It gives you something to think about when you're alone. It helps you to stand things." For the first time Lilas showed a trace of feeling in her voice; she dropped her chin into her palm and, leaning upon the table, stared as if at a vision. Her dark eyes were somber, her brows were lowered and drawn together.

The slipshod informality of the meal, the constant faultfinding of the hostess, made it something of a trial. Lorelei was not sorry when it was over and Lilas took her to look at the va-

FLATS

A flat is a trick home. It is a fairly good place to live until you die, but you should always have something to look forward to if you live in a flat. People who live in flats have a right to go to heaven. A flat has no dimensions, except \$60 a month, or thereabouts. Yet people fall for them, people rent them, people live in them, and people die in them. They are a curious thing, these flats, about as curious as a telephone booth in a row of telephone booths. They look more like a shaft than a flat, this size, you can buy a log cabin and forty acres of land and have a wash pan on the back porch and a big yard full of dewy grass in which to stroll about barefooted, and view the sunrise, about an hour before breakfast each morning. Tell a hardened flat dweller this, and he will shudder at the thought of taking care of the furnace and milking the cow, and will not yield even when you explain there need be no furnace (only a voracious wood stove) and that it is much pleasanter, even to take care of a furnace and milk a cow than it is to take care of a janitor and fight a milkman down the dumb-waiter.

After the River Salmon.
There is just one way to fish for river salmon when it is possible; that is, wading. With waist waders on you advance into the water at the head of the pool and cast your fly over the deep water below. Your guide will probably sit on the bank and watch you, ready to come to your aid with the gaff at the proper time—provided you will take such measures that the proper time arrives.
For all his presence, you will do well not to get in over the tops of your waders, particularly in "heavy" water. If it be so heavy that you cannot negotiate it properly by wading, you will, of course, have recourse to a boat or canoe.
In the country of the pierrot canoe, that long, narrow, but very dependable affair hollowed out of a pine log—and this is quite likely to be salmon country as well—you will find this an excellent craft from which to fish.

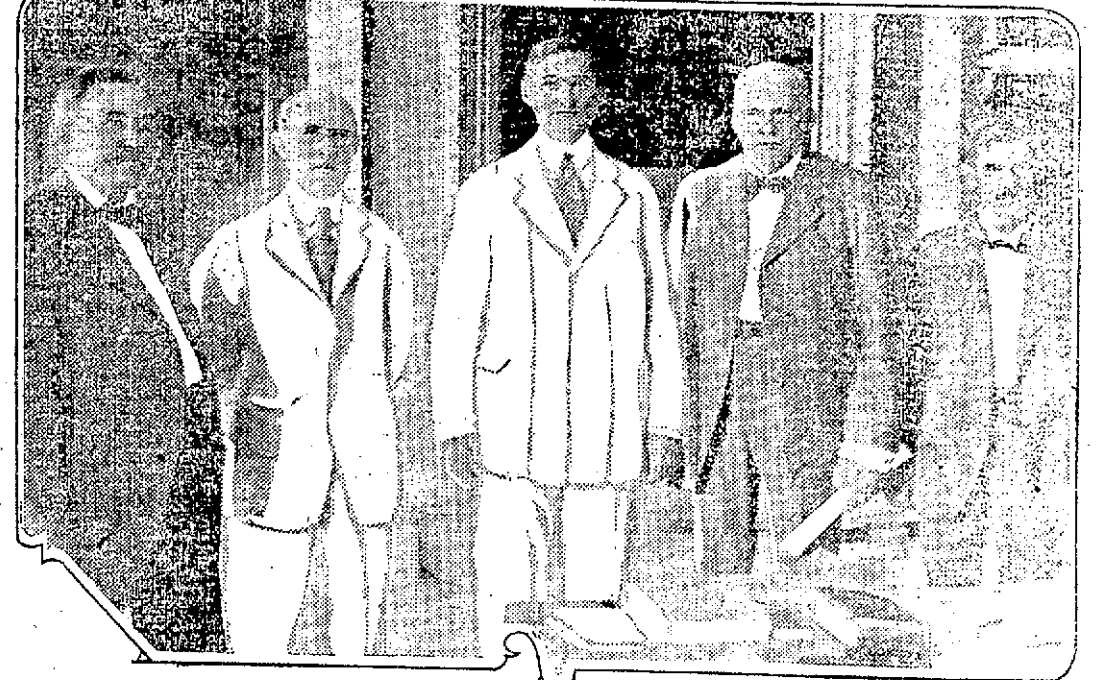

When Kilts Are Dangerous.
A Scotch Highlander, in the Walker hospital, Fraserburgh, states that at the battle of Loos his regiment and several others of the Scottish division, advanced to the attack with practically nothing on them except their kilts. The reason for so doing was that, in getting to the Germans wire entanglements, their kilts were torn to pieces, and impeded their progress.
Another military patient at the hospital was one of the twelve men blown into a dug-out by a shell explosion. The roof collapsed and entombed them, and they lay there unconscious for seven hours before their comrades could effect their rescue.

Used Same Shoes 17 Years.
Using one pair of shoes for 17 years without repairs Mrs. Nathan Messick of Georgetown, Del., declares she has the oldest pair of shoes in continued use in the country.
Seventeen years ago she purchased the shoes from William G. Bryan, who kept a crossroads store between Georgetown and Laurel. Since that time Mrs. Messick can recall few Sundays when she has not worn them, which means their employment for 884 days, or nearly two years and a half of solid use.
Mrs. Messick prizes the shoes highly and from appearances declares they will last her five or six years more.

NATIONAL FARM LOAN BOARD VESTED WITH IMPORTANT DUTIES

The duties of the national farm loan board are equally as important as those of the federal reserve board, and each board supplements the other in a large measure. The farm loan board will work closely with the farmer, and provide for his needs as practically no other governmental body now does. Its chairman is George W. Norris of Philadelphia.

SMOKERS IN DICKENS' WORKS

Great Novelist Had Many of His Characters Use Tobacco in One Form or Another.

The "cigarettes" mentioned by Dickens in 1857 were "brown paper cigars," an informant writes to the London Chronicle, and were evidently rolled by hand in the fashion not unknown today, though rapidly being superseded by the machine-made article.
In the first chapter of "Little Dorrit" written in 1857, the villain Rigaud brought to him with his rations and he rolls it "into cigarettes by the aid of little squares of paper which had been brought in with it." The scene, by the way, is dated by Dickens "thirty years ago." Whether the paper was white or brown does not appear, but it seems clear enough that the smokers in question, this rolled in a prison cell, had more likeness to the modern cigarette than to a cigar, although the novelist sometimes calls them little paper cigars.

"Little Dorrit," I think, adds the correspondent, is the first of the novels in which the word "cigarette" appears, although pipes and cigars are frequently mentioned, usually in the mouths of the morally less admirable characters. Montague Tigg and Cheery Styme both move in an atmosphere in which tobacco is added to frowsiness. Rogue Riderhood's rascality is heightened by his use of a pipe, and the depth of Quilp's inhumanity is emphasized by his abilities in the way of what is now called "chain smoking" with cigars, while he swallows, boiling rum from a pannikin kept on the fire. Eugene Wrayburn's languid idleness is soled by cigars, but correct characters, such as John Harmon, never touch what Tony Weller calls "the flagrant weed."

Poor timid little squirrel! He does want the peanut. But yet to him the little boy looks big and dangerous. While Mr. Squirrel is deciding whether or not to venture down the tree, you have a chance to draw his picture. Get a large sheet of white paper and copy this large square. Now divide it into small squares, perhaps eight on a side, like this: Begin to draw by counting the number of squares down and the number across. Draw first in pencil and finish in ink.

FORTY YEARS AGO

Janesville Daily Gazette, Thursday, August 17, 1876.—The Milwaukee Sentinel man got back last night, and the following is the result of his labors in behalf of the sporting column of that paper.
Janesville is disgusted with her ball club. The Gazette refused an advertisement of the Mutual Life Insurance company on account of its name.
The Janesville boys say they were short two good men. From the rolls of Tuesday's game, it appears they were short five good men.
Elm Grove, Aug. 16.—About thirty tramps reached here this morning from the east, on the line of the Pacific du Chine division. They claimed to be citizens on Janesville who had been to Milwaukee betting on a base ball game. Several of them bawled their coats for a breakfast.
A lodge of Knights of Pythias is about to be organized in this city. The workmen have commenced the laying brick on the main building of the institute for the blind.
The "Stone Men" at Monterey was sold at auction yesterday afternoon to Northrup & Co. of Milwaukee. It is not known what disposition they will make of the property.
This is the year of "some corn." Mr. C. H. Sutton of Portage brought to the city today a stalk of corn which measured thirteen feet and nine inches, and the ear of corn was eight feet from the butt end of the stalk.
Mrs. F. H. Fellows has returned from Philadelphia.

**GEORGE CHURCH, WEALTHIEST OF COURT
STARS, SHOWS GREAT SPEED THIS YEAR**

Madison, Wis., Aug. 17.—Discovery has just been made by the sheriff's office that the speeders in Dane county are using false number plates on their cars. Recently a number taken on one of the most reckless speeders proved to be that of an electric motor owned by an old lady in Milwaukee. The speeder, however, operated another car.
